Integrity and Citizenship Award Fall 2016

The Office of Student Conduct would like to congratulate *Laura Piehl* and *Matthew Mannino* for receiving the Life Core Proficiency Integrity and Citizenship Award.

The first of the Eight Core Proficiencies at Life University is Integrity and Citizenship. Life University embraces the notion that integrity is not a state, rather that it is a daily striving, a struggle to reach closer to the highest ideals despite pressure to retreat to the lower levels that result in complaints, investigations, hearings and sanctions. This results in a community based on mutual respect.

Life University and the Office of Student Conduct thank you for your leadership in this vital area.

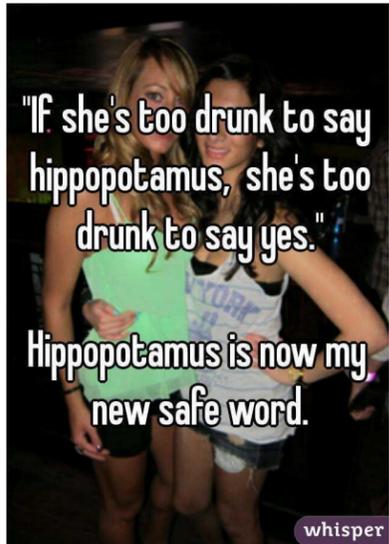

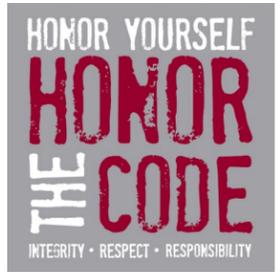

Laura Piehl

Matthew Mannino

Training and Programs offered by the Office of Student Conduct:

- The Student Conduct Process
- Conflict Resolution
- Title IX Education and Prevention
- Bystander Intervention

U.S. Court Reinstates Ban on College's Mandatory Drug Tests of Students

In the latest ruling in a five-year-old lawsuit, a federal appeals court has reinstated a ban on mandatory drug testing for most students at the State Technical College of Missouri.

The ruling, by a 9-to-2 vote on Thursday of the full U.S. Court of Appeals for the Eighth Circuit, overturned a decision by a three-judge panel of the court and restored the original trial judge's finding that the college's drug-testing policy was unconstitutional.

The trial judge, ruling in a lawsuit brought by the American Civil Liberties Union, issued an injunction in 2013 that barred the college, then known as Linn State Technical College, from carrying out the policy on all of its students.

The judge, Nanette K. Laughrey of the U.S. District Court in Jefferson City, Mo., ruled that the college could test students in five programs where public safety was a relevant concern, such as heavy machinery and aviation maintenance.

At the time it announced the policy, in 2011, the two-year college said the testing might better prepare students for the drug-free work environments they would enter after graduation.

"It's not a matter of catching them doing something wrong and kicking them out of college," Richard R. Pemberton, the associate dean of student affairs, told *The Chronicle*. "The whole process is meant to be educational."

The court's majority on Thursday said that "fostering a drug-free environment is surely a laudable goal." But the judges ruled that the college could not justify the drug-testing policy's ignoring of requirements, backed by the Fourth Amendment's protection against unreasonable searches, that officials have probable cause or warrants before administering such tests.

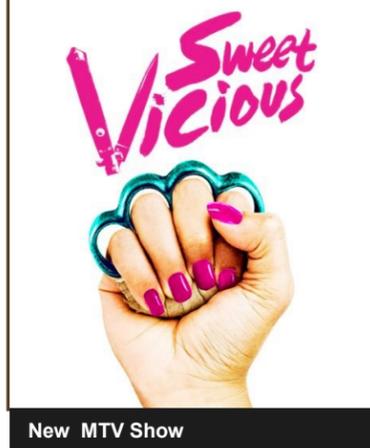

The Associated Press was unsuccessful in seeking comment from college officials on Thursday. Any appeal at this stage would go to the U.S. Supreme Court.

MTV Series, Sweet/Vicious

MTV describes "Sweet/Vicious" as an offbeat superhero story for the millennial generation. It's about unlikely friends Jules and Ophelia taking a stand against those who dare get away with abuse on their college campus.

Jules appears to be the perfect sorority girl, but little do her fellow sisters know that, come nightfall, she adopts a vigilante persona. When computer-hacking weed dealer Ophelia discovers Jules' gig, it rekindles her interest in college life and kick-starts an odd-couple partnership hell bent on exacting revenge -- clumsy attempts and missteps notwithstanding.

The Georgia Coalition Against Domestic Violence says that in Georgia:

13,929 victims of sexual violence are served annually.

7,466 of those are child victims of rape.

30,177 adult and child victims of domestic violence served annually.

Georgia ranks 10th in the nation for the rate at which women are killed by men.

3,391 requests were unmet for domestic violence shelter due to lack of space in 2012.

Victims of rape and sexual assault in 52 Georgia counties have limited or no access to services of a sexual assault center.

Due to lack of funds, sexual assault centers are unable to provide replacement clothing to some rape victims when their clothing is taken for evidence collection, forcing some rape victims to leave their exams clothed only in hospital gowns.

Rise Up Against Rape This Valentine's Day

Swastika Placed on Sign of Jewish College

The main sign of Hebrew Union College-Jewish Institute of Religion was vandalized with a swastika some time before people arrived on the Cincinnati campus Tuesday morning. Authorities are investigating, and the swastika was washed off the sign. Many campuses have been reporting swastika vandalism in the last two months -- with only some of the incidents involving Jewish-related spaces.

Rabbi Aaron Panken, president of the college, issued a statement that said in part, "We will not let this act of hate alter our important work. We are indebted to the people of Cincinnati who have stood by us for generations and who have offered their support again today. Tomorrow, a new day will dawn and the values we hold dear will continue to light the way."
