

Academic Learning Center Workshops: CGUS Suite 220

Tuesday, January 17th: 4:00-5:00 PM: Welcome to the Academic Learning Center

We are super excited to rebrand the Academic Learning Center to the Life University student population and what better way to kick off the Winter 2023 quarter than a workshop re-introducing the Academic Learning Center. This interactive workshop will go over all the services that are offered at the ALC. We will show and discuss with you how to use Accudemia, how to sign in for a PAL session, explain who all the ALC staff are and what their roles are, how to utilize Tutorme, provide a tour, and much more!

Tuesday, January 31st: 5:00-6:00 PM: #Notetaking

The note taking skills you need may vary from course to course, but good basics will give you a solid start to taking notes that are useful to you when reviewed. No matter if you are in your academic journey, taking notes is and will always be an essential key to you progressing academically. In this workshop, we will go over various note taking styles, how to organize your notes pre class, during class, and post class, and go through some apps that can be downloaded that might assist you with notetaking.

Wednesday, February 15th: 3:30-4:30 PM: Test Success

In this workshop, we will review different strategies and skills to approach taking tests from multiple choice, short answer, long answer, and more. The goal of this workshop will be to help you create general test-taking strategies and help you identify the signs of success that occur while taking tests.

Wednesday, March 8th: 4:30-5:30: Technology and Me/Tech Savvy:

This workshop is designed to look at various apps that you can utilize that will contribute to your academic success. We will take a close look at the current platforms/apps that you, as a Life University student, can use daily, such as Blackboard, TutorMe, Accudemia, Mindware and Life University specific apps. We will also look at apps that you can use to help with time management, developing organization, and studying. Most Importantly, MOST ARE FREE APPS!

Monday, April 13th: 3:00-4:00 PM: Finals vs Me OR Me vs Finals

And in the blink of an eye, you have made it to Week 10 of the quarter. While you may have started feeling the pressure going into finals, have no fear the ALC is here. This workshop gives you an opportunity if you have missed any workshops to come in and recap everything we have covered in case you missed something, grab a snack, and get some one on one services.

Facilitated by: Brianna Beaty: Lead Tutor Specialist
