If one or even both apply to you, then come and join our flexibility and strength training class at Life University. This class is a great opportunity for building a stronger body and healthier mind with fun activities. Do not let this good opportunity pass you by and come join us!

**Tuesday and Thursday 12:00pm – 1:00pm**

**FUN IS FITNESS** - This is a minimal impact fitness class using hand weights and flexibility exercises. Based on research conducted at Tufts University, participants will note positive outcomes such as increased strength, improved balance and range of motion, as well as prevention/reversal of osteoporosis. Studies indicate also that stronger people increase activity levels and are less prone to falls. Stronger muscles also prevent injuries to joints. Spinal health is implicit to all stretching movements. LCS provides 3 lb. weights and above. Join us for fun and improved fitness.
