

Your Time is Valuable

The Student Accounts Department has implemented an easier way for students to manage their bank account information to receive direct deposits from Life University. Our new electronic process is as easy as 1- 2- 3. You can now add, delete, or makes changes to your bank account information online! Direct Deposit Enrollment forms will no longer be necessary or accepted. Students will now be responsible for managing all bank account information via our **new online portal, EagleNet.**

IMPORTANT NOTE: *If you have already given us your bank account information through the direct deposit enrollment form there is **no need to re-enter your account information electronically.** You can log into EagleNet and click on banking information to view your current account information.*

New students don't delay! Please enter your bank account information to receive your direct deposit in a timely manner.

LIFE
University

**Working for a smooth educational
experience for all our students.**
