

**LIFE UNIVERSITY'S MASTER'S IN POSITIVE PSYCHOLOGY DEGREE
RECOGNIZED AS ONE OF THE MOST AFFORDABLE IN U.S.**

Marietta, Georgia, March 21, 2018 – Life University (LIFE) has been identified as one of the most affordable online Master's in Psychology degree programs from a private university in the recent ranking by **The Best Master's Degrees**, whose mission is to help prospective graduate students make informed decisions about what kind of degree to pursue and where to study.

Obtaining a master's degree is a process that takes time and dedication, though it can help to enhance a person's career and earning potential. To help its readers find the right program for them, The Best Master's Degrees reviewed 98 private colleges and universities with online master's in psychology degree programs – and **Life University ranked in the top 20**.

LIFE is ahead of the curve when it comes to implementing a curriculum for Positive Psychology, and with trends in today's society going toward areas such as mindfulness, meditation and self-cultivation, we expect many others to follow.

In fact, no other program in the Southeast offers a master's degree in Positive Psychology and **LIFE has one of only three such degrees in the United States**.

LIFE offers its master's degree program in Positive Psychology in three specialized areas of study (tracks): General, Coaching Psychology, and Secular Ethics and Contemplative Science. Both the General and Coaching Psychology tracks are offered online as well as on campus.

The master's degree in Positive Psychology at LIFE investigates what makes a happy life as opposed to an unhappy one. It is focused on the study of flourishing and positive human functioning, in particular, key areas such as happiness, meaning in life, gratitude, compassion and forgiveness. Positive psychology is about building on individuals' strengths so that they can lead meaningful and fulfilling lives, and families and communities can thrive. In the same way, positive psychology focuses on the ways social institutions and groups can enhance people's lives.
