

WHO ARE WE?

AALPHA (African American Leaders Promoting Higher Achievement) promotes success and high impact engagement for students of African descent through comprehensive advising, developmental programming, student advocacy and structured learning experiences within an inclusive community.

**WINTER QUARTER 2019
VISION BOARD PARTY**

Real **LIFE** Da!Logue

ACADEMIC SUPPORT PROFESSIONAL

Through one-on-one strategic meetings you will have the opportunity to develop new strategies, build existing skills, and figure out how you are uniquely wired in order to maximize your learning experience. We will help you navigate different resources available through Life University.

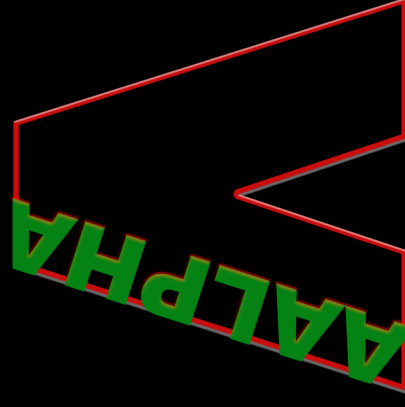

ACADEMIC SUPPORT AND CULTURAL WORKSHOPS

We have a series of workshops and events offered each quarter that cover topics that are relevant to you. The workshops are designed for students who identify with the experiences of African American, Black or ADOS cultures. Our workshops also include topics such as learning how to study to learning styles, time management, strategies for reading and note-taking, how to get the most out of your test preparation, and life skills.

PEER MENTORING

The **STARS Peer Mentoring Program** promotes academic success, persistence, and relationship building by connecting first- and second-year students with upperclassmen that can offer helpful information, warn of dangers, and share their own experiences.

LIFE UNIVERSITY

My name is Mark Pilgrim, and I'm from Trinidad and Tobago. I attended Kennesaw State University where I completed my Bachelors in Business Administration.

My passion is helping build leaders by cultivating an environment that will challenge the status quo so they can become extraordinary leaders in their communities.

I continued my education at Georgia Southern University where I obtained my Masters in Higher Education Administration. I believe that we all have the right to be our authentic self in and out of safe spaces here at Life University.

My goal is to ensure that students feel not only a sense of pride for Life University, but also feel that this is the right fit for their higher education journey.
