

**Re: Follow-up from Earlier COVID-19 Update  
To: Life University Students, Staff and Faculty**

As anticipated, the student who sought medical attention for severe flu symptoms, tested positive for adenovirus, a common form of the flu. In response to Public Health guidelines for institutions of higher education, LIFE was in constant contact with officials at the Cobb County Health Department and will continue to respond proportionately to any given situation that arises that is in the best interest of our students and the LIFE community.

It is important to recognize that COVID-19 exposure is extremely rare, and even if positive, manifests in typical "flu-like" symptoms that are non-threatening to healthy people. The importance of using common sense and judgement is strongly encouraged to avoid the unnecessary and unproductive burden of fear and worry.

To date, there are 6 confirmed and 11 presumptive positive cases of COVID-19 in Georgia. As this is an evolving situation, please refer to the [CDC](#) and the [Georgia Department of Public Health](#) if you are interested in the most up-to-date information. You may also call 1-866-PUB-HLTH (782-4584) or 404-657-2588.

**Additional Precautions We Are Taking**

So that students can exercise best judgement regarding their health, we have temporarily loosened the class attendance policy. If in a student's judgement it is necessary to miss a scheduled class, they are responsible for communicating this directly with the instructor. It is the student's responsibility to obtain material covered in regularly scheduled classes.

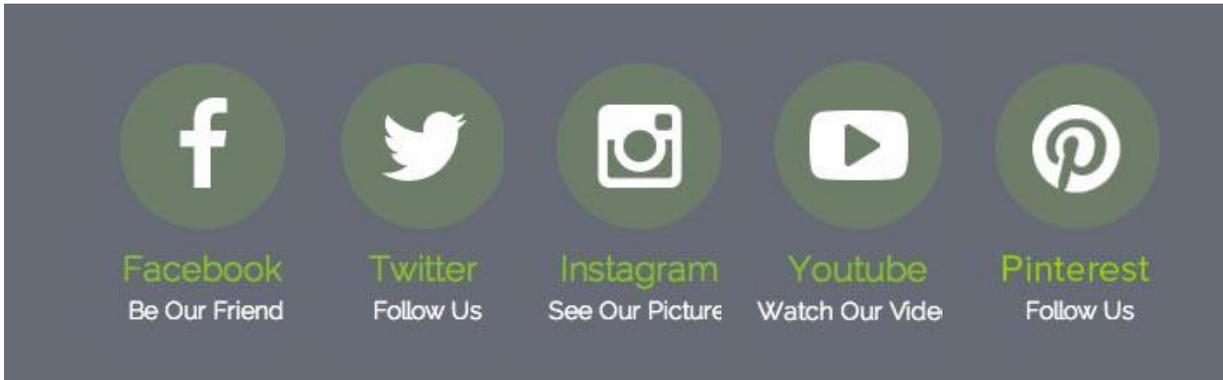

As an additional precaution, we are sanitizing all common places and The Commons Residence Hall bathrooms. The University will continue regular cleaning and treatment of high-volume areas, including dining operations. Cleaning supplies will also be distributed, and hand sanitizing stations will be kept full to the extent that supplies are available to us.

We will continue to monitor and send updates to the community as needed.

Sincerely,

A handwritten signature in black ink, appearing to read "Rob Scott", with a long horizontal flourish extending to the right.

Rob Scott, D.C., Ph.D.  
President, Life University
