Re: Return to Campus Procedures and Protocols

To: Life University Community

As we approach the date of our phased return to campus to open the 2020 Summer Quarter on Monday, July 13, it is vital that we do so with an understanding and respect for the procedures and protocols that will need to be in place and observed for the safety of our LIFE community and campus visitors. A University Task Force, comprised of representatives from Academic Affairs, Athletics, Campus Recreation and Wellness, Enrollment, Events, Housing and Student Affairs have contributed to the Return to Campus document linked above and also available at LIFE.edu/Coronavirus. It is of utmost importance that every member of the LIFE community takes the time to read this document to ensure the smoothest of transitions in getting on-campus operations back up and running.

We thank you for your continued commitment and patience during this unprecedented time, and as always, stay positive and stay well. We’ll see you soon.

Sincerely,
Rob Scott, D.C., Ph.D.
President, Life University
