 Type Name of Principal Investigator/Project Director Type Date

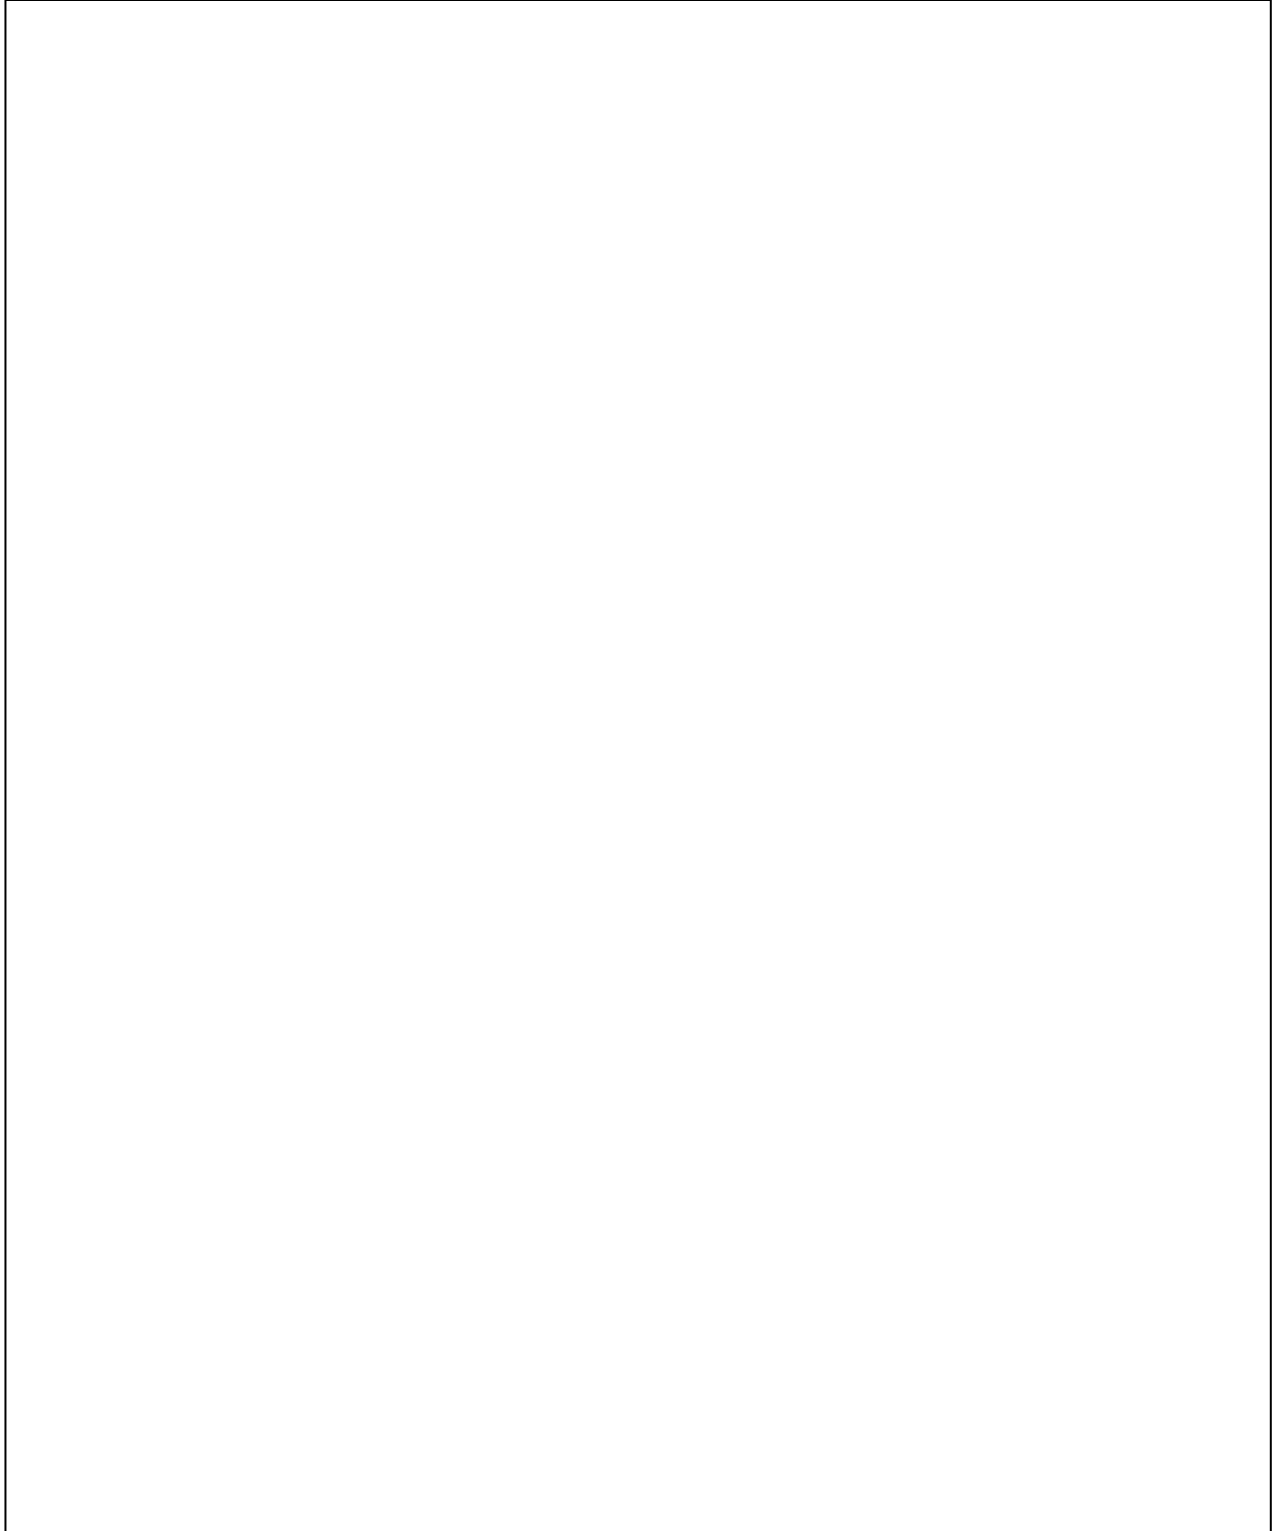

Project Summary: Summarize in one paragraph the WHO, WHAT, WHY, WHEN and HOW of your project. This description will be used in multiple sources for technical and non-technical audiences.

Introduction: Provide two-to-three paragraphs that contextualize your project, including a brief background on the issue, what has been done and/or gaps in knowledge/practice, citing published research as applicable.

Rationale, Goals and Objectives. In two- to three paragraphs, use this section to *define* your position/hypothesis, your *approach* to address the problem, *why* you have selected this approach, and *what*, specifically, you hope to accomplish. Remember, objectives are specific, measurable, and time-oriented and should map to your evaluation plan.

Project Design, Methods/Evaluation. This section constitutes the major substance of your application. In not more than three pages, describe in greater detail the project design. This should include specific information about *what* you will be doing (for example, a mixed-methods survey, controlled experiment, literature review); the *theoretical framework* that informs your approach; *where* the work will take place and why the location is appropriate; *who* will be involved; how you will adhere to *ethical standards* (especially if using human subjects); and the plan to *analyze* and *disseminate* results (specify a conference/professional gathering or publication).

Project Design (cont'd)

A large, empty rectangular box with a thin black border, occupying most of the page. It is intended for the user to provide project design details.

- *Attach quotes/provide url address for supplies/equipment; justification required for preferred vendor.*
- *Attach a separate sheet with a narrative budget justification of not-more-than-two pages.*

Project Timeline. Major activities and tasks with sufficient detail to indicate you have analyzed time and effort and human resource requirements. You can depict the timeline in table format or use bullets.

Anticipated Limitations or Challenges. Discuss in one or two paragraphs some of the likely obstacles that you might encounter and your plan for overcoming those obstacles should the case arise.

Relevance/Benefits. Discuss in one or two paragraphs how the project is relevant to the mission of Life University, to advancing knowledge/practice in your field and/or across disciplines, and benefits to/potential impact on society more broadly.

References: List references cited in your application. Attach a separate page if more significant space is needed.

Additional Funding Sources. Please note whether applications for funding are being provided to/or have been approved by any other agencies or organizations and provide detail of those requests/awards.

Budget Narrative:

Use this page to explain project costs per category, per year (as applicable)

Salaries and Wages (List all key personnel (faculty, staff or students) performing work on the project for whom you are requesting funding support. You should provide each person's title on the project, describe the role they will play, and the time and effort expected, i.e., PI at 3-credit overload to oversee study design, IRB protocol approval, recruit participants, ethnographic research, etc.):

Stipends: (A fixed, regular sum paid over a term period to a LIFE U faculty, staff or student to support work on the project, i.e., PSY faculty to develop, validate and administer survey instrument or sport health science faculty performing bone density analysis using DEXA imaging):

Consultant Fees. (A fixed sum paid over a term period to none-LIFE U personnel for a specific scope of work, i.e., design and lead focus group sessions or analyze metabolite data using LCMS. A basis should be provided for the fee (including a written quote from the vendor). If available, the consultant(s) should be identified.):

Equipment. (With a value equal or greater than \$5,000 per unit. Include written quote or link to url. If a single source vendor is required, provide justification. Detail why equipment is needed, its specific use, where it will be housed, and plans for post-project maintenance and access.):

Materials & Supplies. (Value less than \$5,000 per unit. Include written quote or link to url. List name of item, cost, specific use, plans for post-project maintenance and access, if applicable):

Travel. (List project staff traveling, destination/event, and mode of transportation and estimated cost. None-LIFE U faculty, staff or students are not eligible for travel support.):

Postage, Shipping, Duplication. (Detail as applicable):

Miscellaneous/Other. (List other project costs not captured on previously referenced cost categories. This might be participant support costs such as gas/bus cards, food for after-hour focus groups or extended meetings, etc. All costs must be detailed and justified.):
